Wardrobe in **DECORATIVE** 18mm Boston Oak Woodmatt.

WARDROBE range

polytec's Wardrobe range is designed to bring both style and functionality to your space, offering a variety of options, transforming your everyday storage into a statement of luxury.

Whether you need to organise clothing, shoes, jewellery, or accessories, **polytec** provides affordable solutions to suit all budgets, while utilising luxurious colours and finishes to elevate your wardrobe.

Choose from a selection of options:

- Durable decorative board
- Aluminium framed doors with sleek glass inserts
- 25mm Surano doors for a shaker-style design
- New stylish Horizon drawer fronts

To personalise your wardrobe, **polytec** offers an extensive selection of colours and finishes including Woodmatt, Matt, Ravine, Texture, and Ashgrain, ensuring a modern, sophisticated touch to any interior.

The Boston Oak Collection

polytec's Boston Oak Collection offers 12 stunning oak colours inspired by traditional methods of staining natural timber, using the popular Boston Oak structure as its base. Crafted with **polytec**'s signature Woodmatt finish, offering a refined matt surface with a subtle woodgrain.

25mm Surano wardrobe & barn doors

polytec's 25mm Surano door range offers a shaker-style design made from 25mm E0 MR MDF with 130mm wide stiles and rails with a 9mm MDF infill panel. Available in a range of woodgrain and solid colours, adding a modern touch to any space. Enhance the aesthetic with Fluted Glass inserts, adding textural depth and a refined touch.

Horizon drawer fronts

polytec's new Horizon drawer fronts feature a sleek three-piece construction with a glass insert and frameless top edge, enhancing any interior with a sense of sophistication. Horizon drawer fronts are available in a range of colours, designed to complement your joinery, creating a cohesive design and providing a sense of openness.

At **polytec**, we strive to provide beautifully crafted decorative surfaces of unmatched quality. With an outstanding array of colours, styles, and finishes, **polytec**'s Wardrobe range provides the perfect blend of practicality and elegance for all your storage requirements.

ENVIRONMENT & SUSTAINABILITY

At **polytec**, sustainability is ingrained in the core of our business operations, products, and work practices. Our continual dedication to improving and appropriately managing the environmental impact of our products involves our commitment to steadfastly reducing our carbon footprint, minimising waste, optimising energy efficiency and integrating ethically sourced materials into our product ranges.

Our MDF and Particleboard are manufactured from managed and renewable plantation pine that has been Green Tag, Responsible Wood and PEFC certified. All **polytec** board products are manufactured from E0 or E1 substrates, with particleboard now made from a percentage of recycled wood material.

In our pursuit of responsible waste management, we implement various recycling programs encompassing aluminium, metals, used oils, and timber waste, which is repurposed into packaging, particleboard, and energy. We actively engage with local government environmental initiatives, subject ourselves to voluntary audits, and uphold our internal Energy and Carbon Management Policy (ECM), aligned with the Australian Government's Energy Efficiency Opportunities (EEO) program.

Our network of national facilities boasts over 53,000 solar panels, generating 15,238,000 kWh of renewable energy — equivalent to planting 7,377 trees and preventing the emission of 11,000 tonnes of CO2. The Oberon facility is Australia's largest rooftop solar system, with 27,000 panels spread across 8 hectares of rooftop.

In our ongoing commitment to sustainability, **polytec** continues to refine and enhance our practices to contribute to the establishment of a circular economy, fostering a better future for all.

polytec doors, panels and benchtops are certified Australian Made & Owned.

CARE & MAINTENANCE

polytec do not recommend the use of Decorative products in a sliding or non-fixed application (hinged) unless the use of a mechanical stabilising system is fitted. Decorative doors and panels are supplied with a protective film to protect the surface during installation. This film must be removed within three months of installation.

Your Decorative doors and panels are made from a Moisture Resistant Medium Density Fibreboard (MR MDF), but as with many wood based panels, they are not waterproof. Care should be taken to wipe up spills immediately, ensuring the doors are not exposed to high or continuous levels of moisture, steam and humidity.

Decorative doors and panels should be cleaned by wiping down with a damp soft cloth and warm soapy water. Followed by drying using a soft or microfibre cloth so as not to leave any residue on the door or panel. For more stubborn stains use a good quality streak free glass cleaner. Always ensure you refer to the recommendations provided by the manufacturer of the cleaning product before use.

By following these simple steps you should retain a beautiful kitchen surface for many years.

Visit www.**polytec**.com.au for specific care and cleaning information.

IMPORTANT

Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit www.**polytec**.com.au.

polytec swatches and samples represent a small area of the overall colour structure, to view a large colour sample or a full sheet design, visit www.**polytec**.com.au.

The use of our current samples gives the colour and finish that a customer would expect to receive. Samples are provided for colour and finish selection and **polytec** recommend testing a sample for fingerprint resistance and ease of cleaning. **polytec** does not guarantee exact colour matches across product ranges due to colour variation in each product group.
